Department of Immigration and Citizenship

Addendum to the Application Document Checklist

This addendum to the application document checklist details Philippine specific information and supporting documents (personal, health and character) required to assist with the lodgement of a complete application with the Visa and Immigration Office in Manila.

This document checklist should be used along with the visa-specific Application Document Checklist that can be downloaded from the department's website.

To download the Application Document Checklist of the visa you are applying for, please complete the Visa Wizard found at www.immi.gov.au/visawizard.

The Application Document Checklist and this Addendum **MUST** be submitted along with your application.

Your documents must be arranged in reverse order as they appear on the Application Document Checklist.

IMPORTANT: For applications lodged in the Philippines, we require that all original documents be submitted along with certified copies of the originals. All original documents submitted will be returned to you once the decision on the application has been finalised.
